WEATHERIZATION ASSISTANCE PROGRAM

The Power of Community

ASSISTANCE EXPLAINED

What is weatherization?

The Department of Energy's Weatherization Assistance Program (WAP) is the nation's core program for delivering energy efficiency services to low income households. The program's goal is to reduce energy costs to low income persons by improving the energy efficiency of their homes while ensuring their health and safety. Weatherization benefits low-income households and communities nationwide and generates an average energy cost savings of \$300 per home each year. Professional trained weatherization crews perform on-site energy audits using state-of-the-art equipment to identify outside drafts and inspect heating and cooling systems for efficiency. Weatherization crews install insulation, seal off air leaks, make modifications to (or replace) existing heating systems, and make minor repairs to ensure safety. Once installed, these energy saving measures help to reduce heating and cooling costs for years to come.

Who provides the weatherization services?

Community Action Agencies across the state provide weatherization and an array of other services in all 77 Oklahoma counties. The Community Action Agency that serves your county is listed in the chart below.

Do I qualify for services?

WAP has income eligibility requirements. You are automatically eligible if you and/or family members receive Supplemental Security Income (SSI) payments for the Aged, Blind or Disabled, or cash assistance payments under Title IV (Grants to State for Aid and Services to Needy Families with Children and for Child Welfare Services).

You may also be eligible for assistance if your income meets the federally established income guidelines shown in the chart below. You don't have to own your own home to qualify. You may qualify whether you own or rent, live in a single-family home, multi-family housing or in a mobile home.

Is preference given to certain groups?

Even if you do qualify, please be aware preference for services is given to the very low income, persons over 60, persons with disabilities and families with small children.

How do I apply?

To apply for services or to get additional information on the Weatherization Assistance Program, contact the appropriate agency for your area. Check chart in this brochure to identify your contact. To find out more about energy efficiency measures supported through the stimulus bill, visit www.eere.energy.gov/weatherization. To learn about other ways Tri-County Electric is helping members save on energy use, visit www.tri-countyelectric.coop.

2009 Income Eligibility for the Weatherization Assistance Program

FAMILY SIZE	MAXIMUM INCOME
1	\$21,660
2	\$29,140
3	\$36,620
4	\$44,100
5	\$51,580
6	\$59,060
7	\$66,540
8	\$74,020

For each additional member
add \$3,740
